

Sabian Mysteries

Facilitator Exercises

Introduce your Partner

Exercise

In pairs, spend 10-15 minutes asking questions and listening to each other carefully, discovering details of the partner's life. Then, in the larger group, each introduces their partner to the group.

Teaching

It is both helpful and encouraging to hear yourself spoken of. Also the ability to listen to another is of primary importance, as is the skill of assimilating information and reporting it in summary.
