## Facilitator Exercises

Understanding yourself - Midheaven (MC) Sabian Symbol

Exercise

Contemplate these aspects of your life experiences:

1. Social role
2. Career
3. Reputation

Discuss this in relation to the position of your Midheaven, particularly its Sabian Symbol.

Teaching

The social circumstances in which we live offer the field of our life experiences on the outer level so that we can grow in the complexity and reach of our self-expression, often achieved as a career path.

Our interaction within this field of experience is meaningfully measured and understood by the qualities and impact of our reputation.

We are studying how we branch out to discover and learn more of the realm in which we operate and how that shapes our perception of reality.
